- Ideal near front doors, rear doors, garden sheds and garages

Overview

The HPM Solar Security Floodlight with Sensor is perfect for enhancing security. This silver aluminium light features a corrosion-resistant brushed finish and a 130-degree sensor that detects movement within a 6-metre range. Ideal for front doors, rear doors, garden sheds and garages, it activates upon detection, making it easier to find your keys or deter strangers.

Quality You Can Trust

Installation

- With a 5m cable, the solar panel can be placed in a position that receives the best sunlight

Convenient Functionality

- Adjustable motion sensitivity dial helps prevent false triggers from pets or winds
